www.screencanvas.co.uk

An enthusiastic and organised Front End Developer with success in delivering projects on time, meeting SLAs. Skilled in React, Typescript, JavaScript, jQuery, WordPress and GitHub. A team player sharing ideas, ensuring projects are completed to the highest standard.

Training and Technical Skills

Microsoft MTA - HTML5 CSS3 Assessment Exam 2014

RQF Level 3 Web development Course -GitHub, JavaScript jQuery Rest API Lifecycle, Bug fixing 2016

Morning Data | Software Developer

Dec 2023 – Jan 2025

Created environments using lo-code software, using API requests to collect and validate user data.

Built onboarding forms using drag and drop elements.

Worked in Agile to update custom dynamic questions using HTML and CSS to design and improve user data registration forms.

Used JavaScript to make the user interfaces interactive and check user input.

Released new versions after being tested.

Backed up environments using snapshots.

Message Direct | Call Handler

May 2023 - Nov 2023

Short-term contract role as a Virtual PA taking messages on behalf of companies. Logged queries onto the in-house system, put calls through to specific departments and completed forms for customers' queries.

Websific | Front End Developer Dec 2021 – Mar 2023

Built a RestAPI to compare and categorize product pricelists saving 12% of buying costs.

Rebuilt Store page to highlight best selling products as well as simplify the purchasing process.

Formatted the shopping page to mobile first creating more streamline experience for all device sizes.

Managed social media and EBay pages, building a following and engaging with customers to increase revenue.

Active Claim Solutions | Repairs Advisor

May 2019 – Dec 2021

Arranged courtesy vehicles for clients involved in accidents. Liaised with garages over bookings and schedules. Updated database with current claim progress stages. Contacted clients to match them with an appropriate hire car.

Conduent | Customer Service Advisor Jan 2019 - Apr 2019

Taking inbound calls assisting Peugeot and Citroen customers queries.
Logged cases to system and forwarded to managers or relevant departments.
Responded to social media and emails.
